1. Introduction

Congratulations on your purchase of the 480 Vibrionic Hair Straightening Iron! You have selected a high-quality product designed to deliver an unparalleled hair styling experience. This user manual contains important safety and usage instructions. Please familiarize yourself with all instructions before using the appliance. Use the product only as described and for the applications specified. Pass these instructions on to any future owner to ensure safe operation.

The 480 Vibrionic (pronounced vib-ree-on-ik) is named for its fusion of advanced vibration and ionic technologies, providing smoothness, shine, and long-lasting results. Whether you're working with the most challenging hair types or delivering flawless results, the 480 Vibrionic will meet your needs with cutting-edge performance.

2. Important Safety Instructions

To reduce the risk of burns, electrocution, fire, or injury to persons:

- Read all instructions before using the appliance. Check that the voltage indicated on the rating label corresponds to your mains voltage before plugging in.
- Damaged cord warning: If the power cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard. Never use the appliance with a damaged cord until it has been replaced.
- Avoid disassembly: There are no user-serviceable parts inside. Never take the appliance apart.
- Supervision required: Close supervision is necessary when used by or near children or individuals with certain disabilities.

- No water exposure: Do not use this appliance near bathtubs, showers, basins, or other vessels containing water. Avoid contact with water and never use with wet hands.
- Heat precaution: Avoid placing the Advanced Carbon Ceramic 3D Floating Plates close to the skin during operation, as they can cause burns.
- Proper cord management: Keep the power cord away from heated surfaces. Do not cover the thermal plates or other parts with any objects.
- Unattended use: Never leave the appliance unattended while it is operating or plugged in.
- Extension cords: Avoid using any extension cords with this appliance.
- Children's safety: Ensure that children do not play with the appliance. This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, unless supervised by a responsible person.
- Additional protection: For enhanced safety, consider installing a residual current device (RCD) with a rated residual operating current not exceeding 30mA in the electrical circuit supplying the bathroom. Consult your installer for advice.

3. Operating Instructions

3.1 Preparation

- Wash hair thoroughly with an appropriate shampoo and ensure that it is 80% dry and clean before using the appliance.
- Plug the appliance into a power outlet and place it on a smooth, dry, flat surface.
- Ensure your hands are dry before handling the appliance.

3.2 Operation

- Press the ON/OFF switch to turn on the appliance.
- Adjust the temperature by pressing the "+" or "-" buttons to select between the available temperature settings: 320°F, 360°F, 400°F, 430°F, 460°F, or 480°F.
- The temperature indicator will stop flickering once the desired temperature is reached.
- Use the Advanced Carbon Ceramic 3D Floating Plates to style your hair. These plates ensure even heat distribution and smooth operation, reducing friction for effortless styling.
- The Vibratech™ Module produces sonic and sub-sonic frequencies to gently smooth the hair cuticle during the straightening process, enhancing shine and leaving hair sleek.
- The Integrated Negative Ionic Emitter will release tens of millions of negative ions, dramatically reducing frizz and boosting shine for long-lasting styles.

4. Temperature Settings

The 480 Vibrionic offers a range of temperature settings (320°F to 480°F) to suit different hair types and styling needs. Use the "+" and "-" buttons to adjust the temperature to your desired level. The NextGen Heating Element Design ensures that the selected temperature is reached quickly and consistently maintained throughout use, allowing for optimal styling results.

5. Automatic Shutoff Feature

For added safety, the appliance features an automatic shutoff. After 30 minutes of inactivity (since switching on or after the last temperature adjustment), the appliance will power off automatically to prevent overheating or energy waste. To restart, press the ON/OFF button again.

6. Cleaning and Maintenance

- Turn off and unplug the appliance before cleaning. Ensure the unit is completely cooled down.
- Wipe the appliance clean with a soft cloth. Avoid using any chemical cleaners, as these may damage the surface.
- Regular maintenance: Ensure the appliance is clean and free of hair product residues. Clean the 3D Floating Plates regularly to maintain their smoothness and performance.

7. Troubleshooting

If the appliance is not functioning properly or experiencing issues, check the following:

- Ensure the power cord is intact and properly connected.
- Make sure the appliance has not overheated and activated the automatic shutoff feature.
- If problems persist, discontinue use and contact customer support.
